

Fanconi Anemia as a Predisposition to Bone Marrow Failure, Clonal Hematopoiesis and MDS/AML

Provided by

Speaker: Jean Soulier, MD, PhD; Marcin W Wlodarski, MD, PhD

Date/Time: 12/8/2022 8:00:00 AM

Location: Marlo Thomas Center/Webex

Educational Objectives

At the conclusion of this activity, the participant will be able to:

- 1 Acknowledge that patients may experience very different outcomes
- 1 Recognize that Fanconi anemia (FA) predisposes to bone marrow failure and MDS/AML
- 3 Describe the pathophysiology of the disease, at the bone marrow failure and at the clonal evolution stages
- 4 Define the follow-up for the patient and family

Credit Designation

St. Jude Children's Research Hospital designates this live activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)[™]**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Accreditation Statement

St. Jude Children's Research Hospital is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
